

# FSO/RFE EQUIPMENT APPROVAL REQUIREMENTS

Commercial equipment for food service operations and retail food establishments shall be approved by the Wayne County Health Department **PRIOR TO PURCHASE AND INSTALLATION.**

Information that needs to be submitted for review includes the following:

1. Equipment Specification Sheet – Indicate the manufacturer and specific model number for the proposed equipment to be purchased. Please include the quantity being purchased if more than one (1) unit.
2. New or Used Equipment – Indicate if proposed equipment is being purchased “new” or “used”. If equipment is purchased “used”, please indicate where it is being purchased (i.e. specific equipment supplier, eBay, auction, etc.).
3. Additional or Replacement Equipment – Indicate if the proposed equipment is replacing existing equipment or if it is additional equipment. Which existing equipment is it replacing? If additional equipment, is the menu changing to include more food/beverage items or is additional equipment needed to prepare the existing menu?
4. Equipment shall be approved by a recognized testing agency and have at least one of the following logos:

**NOTE:** Some equipment may require a plumbing permit, backflow device and/or air gapped drain line. These additional requirements will be addressed in the equipment approval letter.
